REPORT OF THE TOWN CLERK

The number of marriages reported to this office for the year 1958 were six (6), three were first marriages for both parties, one was a second marriage for both parties, one was a first marriage for one and a second marriage for the other, one was a second marriage for one and a third marriage for the other. Eight of the parties were from Brooklin, one from Ellsworth, one from Stonington, one from North-east Harbor, and one from Castine.

The number of births were four (4), two males and two females.

The number of deaths were eleven (11), one was ninety-two, two between eighty and ninety, two between seventy and eighty, one between sixty and seventy, two between fifty and sixty, one between thirty and forty, one was nine and one under one month.

There were seventy-seven dogs licensed, forty-four males, eleven females, twenty-two spayed females.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Brooklyn: I respectfully submit the Financial Report of the School Department, the estimate of expenses prepared by the School Committee, and my twelfth annual report as Superintendent of Schools.

Enrollment reported by the teachers at one time during the first semester was as follows: Sub-Primary 6; Grade One 6; Grade Two 4; Grade Three 7; Grade Four 8; Grade Five 10; Grade Six 9; Grade Seven 9; Grade Eight 13; Grade Nine 11; Grade Ten 6; Grade Eleven 10; Grade Twelve 4; Total 103.

Since there are more pupils in Grades Six, Seven, and Eight, than in Grades Ten, Eleven, and Twelve, it may be expected that high school enrollment will increase for a time. Since enrollment in the upper six years, (Grades 7-12) exceeds the combined enrollment of the lower seven grades (Sub-Primary through 6) it is evident that eventually the high school will be smaller and it seems likely that the total school enrollment of all grades may be due to decline.

ADULT EDUCATION

Enrollment in the two adult education courses was very satisfying. Mrs. Barbara Moore taught a course in Typing, with total enrollment of fourteen, and the enrollment in the Bookkeeping course was eleven.

I have talked with some of those who took the courses, and they report them to have been very helpful. I am sure we are grateful to Mrs. Moore for her willingness to teach the classes during the season when she was busiest with basketball.

SCHOOL LUNCH

The school lunch program was opened again in March, after having been closed in late January. Mrs. Margaret Gray has been doing the work alone, with student help at the businest hours. With the aid of the appropriation made by the town the program has been operated with no further loss. While the Financial Report of Schools indicates that the appropriation was not entirely expended, it must be remembered that the period of operation was a little less than a year, since the program was closed a week in January, all of February, and part of March, 1958.

The requested appropriation is almost exactly enough to meet the labor cost. Other costs can come from payments for meals, and from government subsidy, except for some trucking charges, possibly.

SINCLAIR EDUCATION LAW

Since the Sinclair Law encourages towns to combine for school purposes; thus operating larger high schools, and since the Law authorizes higher payments of state aid to such combinations of towns, the School Committee authorized a public meeting in November, at which Mr. Joseph Leonard, was the speaker, representing the Maine School District Commission.

Following his explanation of the Law, the School Committee appointed a committee of seven to serve with the School Committee as a Study Committee to work with other towns to obtain complete information about the effect which such a combination of towns in the vicinity might have on future educational plans for this town.

Such a study is now going on.

SCHOOL REPAIRS

The School Committee is hopeful that during the summer it may be possible to begin long-deferred work of improving the gymnasium. If the exterior walls can be insulated and sheathed this year, and some work done to sheathe and paint the ceiling next year, the gymnasium should be warmer, lighter, and pleasanter.

The gym is often quite chilly at lunch time on cold days, and as everyone knows, the walls at present absorb, instead of reflecting light.

The Committee also hopes to paint part of the outside of the high school this summer and finish the job next year.

Other plans for the near future include oil heat, or a coal stoker for the high school and further additions to the new pupil seating already purchased.

On behalf of the teachers and pupils, as well as myself, I want to thank the School Committee for never-failing interest, counsel, and support; and to thank the people of Brooklin for their willingness to support and aid their schools with a generosity and loyalty that can only be described as devoted.

Respectfully submitted,

RALPH S. SMITH

Superintendent of Schools

PRINCIPAL'S REPORT

To: Board of Selectmen

Town of Brooklin

What is wrong with our American Schools? Are we lagging behind other countries? Why do we not have better teachers? These questions and many others are being asked across the country and they should be. We are about to begin a new school year with much discussion of new and improved education opportunities. Brooklin High School as well as all other public schools across the country is beginning to receive additional criticism. This inquiry and discussion coming from parents of school children and other citizens as well. This interest will undoubtedly make for better schools. The only thing that is either good or bad, right or wrong, with our schools is the people behind it. We as citizens will make our schools what they are. Improvements will come because the citizens want this school to be better. I have found both willingness to work and cooperation outstanding here in Brooklin. For this reason I look for many improvements to materialize in the near future.

We are making attempts to improve the caliber of academic work. This will be accomplished through hard work and continued home support.

Very careful management of funds available has given the school lunch program a successful year up to now. I wish to express my thanks to Mrs. Gray for her work and her fine meals we receive on very limited funds. Monthly income is slightly above our expenses so that we will operate

very nearly even as long as students' participation is high and payments are regular.

Since four students will be graduating and twelve will enter in 1959 our register will show an increase of eight students thus making the total approximately 38 students for next year.

The magazine drive netted a profit of \$150 this year which the school is using for all miscellaneous expenses. New goals and a basketball were purchased. We hope to see new back-boards, a score board, refinished floors, and the enclosed ceiling in the gymnasium in the future. Other projects being worked on here are the play ground behind the school and the renovation of the cabin which could be used as a club house for several groups.

The commercial department was reopened last year. A program of adult education in typing and bookkeeping was successful under the able guidance of Mrs. Moore. There were 14 enrolled for the typing class and 11 for bookkeeping. We hope for an increased enrollment next year.

May I express my appreciation to the citizens of Brooklin and to the faculty of the school for their help and co-operation this year. This has been a most enjoyable year at Brooklin High School for me.

Respectfully submitted,

RAYMOND RANCOURT

PUBLIC HEALTH NURSING

SERVICE

To the citizens of Brooklin I hereby submit a report of the Four Town Nursing Service for the year January 1 through December 31, 1958.

School Health Program

During the school year visits to teachers were made each month in both schools. Individual health problems were discussed and suggestions for corrections and aid were worked out with teachers and parents. Conferences were held with the principal of the high school as necessary. Both principal and staff have been very cooperative and the Four Town Nursing Service wishes to thank them for their kindness.

The annual fall inspection of pupils in both schools was done as soon as possible after school started. This includes skin, teeth, throat, hair, height, weight and posture. Notices were sent to parents as needed, asking them to check with their family physician. Weights were checked again in the spring and gains or losses noted on permanent health records. Vision tests are done by teachers as required by the State, but your nurse re-checked as suggested. Notices were sent to parents as necessary.

Upon request of teachers, or the principal, parents were contacted to urge corrections and to suggest ways and means of obtaining them. Parents have, as usual,

been very cooperative and a large percentage of corrections were done immediately.

Money for necessary corrections was obtained from the Four Town Nursing Service and from the various charitable organizations. They are always very willing to contribute and many thanks are due them.

Audiometer tests for hearing were done the beginning of the year. These are done from the fourth grade through the high, and are a valuable aid in rounding out the health program. Home calls were made as needed, to suggest further check with family physicians.

The Four Town Nursing Service, with the approval of the school board and town officers, sponsors the school physician in Brooklin. All pupils in the sub-primary, first and fourth, junior high and high were examined by Dr. Bliss with your nurse assisting. After examinations, home calls were made as necessary, to notify of doctor's recommendations and to urge further advice and treatment by family physician.

A donation of \$25. was given to aid in the hot lunch program in Brooklin.

Pre-School Program

As we do not as yet have a pre-school program in Brooklin, any child ready to enter school may go to the regular spring immunization clinic. The nurse should be contacted before March.

Immunization Program

This year 26 vaccinations, 6 diphtheria toxoid, 6

tetanus, 6 whooping cough inoculations and 17 boosters were done by Dr. Bliss with your nurse assisting.

There were four third shots for polio done in April. This completes the program to date.

The last adult polio clinic was held at the Drs. Connell's office in Blue Hill and was very well attended.

Tuberculosis Program

It was not necessary for anyone to attend the regional clinic at Ellsworth this year. As usual teachers and pupils were very cooperative at seal sale time. Again citizens have been most generous in giving and our Four Town Nursing Service rated high in the State.

General Health

Upon request of mothers or doctors, once a month visits were made to babies under one year. Calls were made to pre-school children each two or three months as needed or requested. Nursing care and treatment was given when required, under doctors' orders. Visits were made for adult health supervision and advice as requested. Arrangement were made for corrections and treatments of patients and transportation done when necessary. Clothing, bedding, shoes and medication were obtained for needy families.

There were also many interviews with doctors, health officers, town officers and members of the committee, necessary in carrying out the various phases of the service.

The following statistics show the number of patients and homes visited during the year 1958.

TYPES	NO. PATIENTS	NO. HOMES
Infants	6	66
Pre-School	15	100
Nursing Care	7	84
Adult Health Supervision	18	140
Tuberculosis (all types)	1	4
School Follow up	14	40
Handicapped Children	5	38
Not Admitted	55	55
Total number hours spent in school work		125
Total number hours spent in homes		295
Total number miles traveled		2060.3

Any one wishing the services of the nurse, is urged to call their town chairman or call the nurse direct. That is the only way that she can find out about individual problems. She is always ready to assist with problems and aid in any way possible.

The Four Town Nursing Service and your nurse wish to express their appreciation for the continued kindness and cooperation of the citizens of Brooklin during the past year.

Respectfully submitted,

Four Town Nursing Service
by: ARLEEN L. GENTHNER, R. N.
Public Health Nurse.

AUDITOR'S REPORT

TOWN OF BROOKLIN

Board of Selectmen

Brooklin, Maine

Gentlemen:

In accordance with Chapter 91, Section 142. Revised Statutes of 1954, and at your request, I have audited the records of the Town of Brooklin for the period February 1, 1958 to February 1, 1959.

The Examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination the financial transactions of the Town appear to have been appropriately handled.

Exhibits and Schedules included in this report impartially present the financial position of the Town and the result of its operations for the period designated.

Comments and other data incorporated in the report may prove of interest to you, all of which is respectfully submitted.

Very truly yours,

RICHARD SHAW
Auditor

C O M M E N T S

Town of Brooklin

February 1, 1958 to February 1, 1959

An audit of the books and records of the Town of Brooklin has been completed for the year ended February 1, 1959. This audit included an examination of the records maintained by the Assessors, Treasurer, Tax Collector and Town Clerk.

The examination included a review of cash transactions as well as an analysis of available funds and expenditures. The result of the year's operations revealed that available funds exceeded expenditures.

ASSETS

The cash balance of \$14,557.13 was reconciled with the statement furnished by the Bar Harbor Banking & Trust Company, Bar Harbor, Maine.

Transactions affecting taxes, tax liens and tax acquired property were reviewed.

DEFERRED REVENUE

The deferred revenue totaling \$1124.17 represents 1959 excise taxes collected which are being carried forward to the 1959 year for proper allocation.

RESERVE

The examination of the appropriation accounts shows a net amount of \$11,331.80 representing various unexpended balances which are being carried forward to the ensuing year and withholding taxes of \$345.20 and Social Security \$132.99.

SURPLUS

The unappropriated surplus of the Town amounted to \$3,312.63 a decrease of \$502.15 as compared with the preceding year. This change was occasioned by supplemental taxes, unexpended balances less abatements, and overdrafts.

TRUST FUNDS

Principals of the funds at the close of the year totaled \$1,229.65 and unexpended income amounted to \$83.32. The time deposit books representing these funds were examined.

SCOPE OF AUDIT

Count of cash was made and records checked to determine the accuracy of recording cash transactions. Available funds and expenditures were examined by methods and to the extent deemed necessary.

Excise tax collections were verified by examination of the copies of receipts retained by the collector. It was noted that all Town records examined had been kept in an accurate and efficient manner.

Included in this report are exhibits and schedules pertaining to the financial status of the Town. Audit procedures were followed to the extent deemed necessary to develop these statements. A detailed report of Audit will be on file at the Town Office.

It is believed that the accompanying balance sheet and supporting statements fairly present the financial position of the Town at February 1, 1959, and the result of its operations for the year ahead.
